Name: Rebecca Senger

Student ID: 30006085

Tutorial Section: B01

Browsers tested:

- Google Chrome

- Mozilla Firefox

How to run:

- To run this code on one of the Linux machines in the lab, first clone the repository rebeccasenger.github.io onto a Linux machine.
- Then in a terminal, navigate to the folder a3 that was cloned
- To run the server use the command:
  node index.js
- Now the server is running on this Linux machine. The web application can be accessed from any machine (including this one) using the url:
  csx1.cpsc.ucalgary.ca:3000
- Note: cookies are stored for each user for a single browser.
